

Dance Showcase

Students were given a project before winter break to create a small choreographed piece in a group during class. They were able to pick their own music, costumes, and hair. These projects will be presented after school on January 31st at 6pm for all to come and see their finishing products. This gives my beginning students the experience of creating a group dance and performing it on stage in front of an audience. This will not be our spring recital; it will be an informal show of each group presenting their projects. This will also help raise money for new costumes. Dance pieces will only be 1:00-2:00 long.
