DR. SHANNON GOODSELL SUPERINTENDENT

DR. JEFF VAN HANDEL DIRECTOR OF BUSINESS SERVICES

January 26, 2015

Citizens and Governing Board Casa Grande Union High School District No. 82 1362 N. Casa Grande Avenue Casa Grande, AZ 85122

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Casa Grande Union High School District No. 82 (District) for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall

financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report. The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### PROFILE OF THE DISTRICT

The District is one of 24 public school districts located in Pinal County, Arizona. It provides a program of public education from grade 9 through grade 12, with an estimated current enrollment of 3,665 for fiscal year 2014 and 3,862 for fiscal year 2015.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, component units combined with the District for financial statement presentation purposes are not included in any other governmental reporting entity. Consequently, the District's financial

statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, athletic functions, and sponsorship of Casa Verde High Charter School.

For the year and for the future. The Casa Grande Union High School District continues to develop activities and programs to foster school improvement. The Administration redeveloped the educational plan for the District and formulated four succinct goals for the near and immediate future. These goals concentrate on a safe, orderly, positive school environment, effective communication between and among the District's stakeholders, student achievement goals, and continued teacher training.

It is our belief that these four goals are the guiding principles for the District's activities for the next several years. The goals are closely aligned with the principles outlined in the America 2000 plan of which the District previously committed to implement.

One is to provide a safe, orderly, and nurturing Community Based School. We believe this can be obtained by maintaining a safe orderly student centered school and continuing to monitor and supervise the student attendance and student behaviors. In addition we would like to obtain student input in development of services such as food, bookstore activities and in any other matters. The District was able to pass in the November 2006 election school bonds for the new 1,500 student high school located on Cottonwood and Arizola in Casa Grande. Vista Grande High School opened in August 2009 with grades 9 and 10 to begin with. The District completed the new transportation facility in October 2008 and the additional remodeling projects for Casa Grande Union High School and Casa Verde/Desert Winds High Schools.

Secondly, we would like to support the continued development of the teaching and learning process. The District plans to obtain this by promoting student ownership, school pride and spirit by making this a student-friendly, "personalized" school district. Also a reduction in the dropout rate, the classroom failure rate, and the student retention rate is an anticipated result the District expects from this goal.

In addition, the District would like to build organizational capacity for instructional improvement. The District would like to provide training and instruction to enhance staff skills and productivity. In the upcoming future we would like to evaluate and modify District policies and administrative practices regarding students to positively impact the teaching and learning process. Finally, the District desires to maintain and expand financial capacity to continue quality instruction. To that end, the District has established Goal Committees that comprise administration, Board and Community members, and employees.

The District's final goal is to promote school and community relations through effective twoway communication. The District believes increasing parental and community involvement at each of the three high schools can achieve this goal.

In order to increase communications at the local high school the District plans to deliver newsletters and parental contacts as well as provide contact information on the District's web page. In order to promote two-way communication the District will develop and utilize results of parent and student satisfaction surveys to increase student achievement and attendance.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

#### FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

The District is located in the western part of Pinal County, which is in the south-central portion of the State of Arizona. The District was organized in 1919 and presently encompasses 1,280 square miles. The current population for the District is estimated at 60,000.

The economy of the District has an urban and a rural component. The urban portion, represented by the activity in and around the City of Casa Grande, is based upon manufacturing, government and commerce. The rural portion is based upon agriculture, mining and tourism.

The City of Casa Grande plays an important role in the District's economy. The City has an estimated population of 50,111, which constitutes nearly 62 percent of the District's entire population, while the City's net assessed value accounts for nearly 50 percent of the District's net assessed value.

Casa Grande is strategically located at the intersection of I-8 and I-10 in an area known as Arizona's Sun Corridor. A convenient location midway between the major metropolitan markets of Phoenix and Tucson, the City of Casa Grande has grown to be the largest community in western Pinal County since its incorporation in 1915.

Its economic base is a mix of retail trade, manufacturing and agriculture, while its market area consists of more than 91,000 consumers.

Its prime location provides cost effective access to global markets. These factors have led to Casa Grande evolving into a diversified full-service area with manufacturing, distribution facilities, retail trade, and tourist-related employment.

The city maintains several mature and new industrial parks with excellent access to major rail lines, freeways and highways. Additionally, these industrial sites are located within a 45-minute drive of Phoenix Sky Harbor International Airport, which provides easy access to both the casual and the business traveler.

The people of Casa Grande put together a successful industrial park and in recent years, first class manufacturers have moved into the area. Among the companies located in Casa Grande are Abbott Nutrition; Daisy Brand; Metal Solutions; Monsanto, National Vitamin Company, Inc.; Quemetco Metals Limited, Inc.; Frito-Lay, Inc.; Hexcel Corporation; Nestle Beverage Company; Ross Laboratories and Walmart Distribution Center and is the North American Headquarters for ACO Polymer Products, Inc. Many of these are manufacturing companies with heavy distribution activity. One of the reasons they chose Casa Grande is that it offers the same, if not better, market accessibility than metro Phoenix or Tucson.

Casa Grande is the retail center for North Western and North Eastern sections of Pinal County serving more than 162,429 consumers, including local retailers, specialty stores, antiques stores, and outlet shopping. Local retailers include J.C. Penney, K-Mart, Walmart, Home Depot, Target, Staples, Dillard's, Lowe's Store #2272, Office Max, Warehouse Furniture Outlet, and numerous other specialty retailers along with several grocery stores.

On November 7, 2013, PhoenixMart a 1.75 million square foot international commercial complex broke ground. PhoenixMart is expected to be operational in the latter part of 2014. This facility will be the newest and largest sourcing center in the United States and third of its kind in the world. It will be used to promote small and mid-sized manufacturers' and agents' products directly to consumers, businesses and international buyers. AZ Sourcing, LLC and its affiliates are the developers and operators of this project.

PhoenixMart is expected to create in excess of 3,000 direct jobs in Casa Grande with an initial investment of approximately \$150 million in building and infrastructure. The majority of the investment for the construction of the project will be from foreign sources under the Federal Immigration EB5 Program. The ED5 Program requires the creation of 10 permanent new jobs for each \$500,000 investment.

According to AZ Sourcing, PhoenixMart will be divided into six product areas: Women's, Men's, Youth, Auto, Home & Hotel and Food. There will be a convention center as part of the facility to host frequent trade shows and offer an e-commerce platform for vendors to sell their merchandise to potentially billions of customers worldwide.

Additionally, during 2013 two dairy manufacturing companies opened new processing plants in Casa Grande. Franklin Foods, Inc., the world's fastest growing cream cheese company, operates a state-of-the-arts 90,000 square foot facility out of the former Arizona Dairy Ingredients building. Franklin Foods, Inc. produces a full line of cultured cream cheese and cream cheese based products including the newly announced and industry first Greek Cream Cheese. The facility is expected to create 80 new jobs over the next two years.

Franklin Foods was established in Enosburg Falls, Vermont in 1899 and has a rich tradition of supporting local New England Dairy Farmers by purchasing fresh milk and cream from nearby farms and suppliers. The company continues this tradition in Arizona by purchasing local milk and cream from United Dairyman of Arizona (UDA).

Ehrmann Arizona Dairy, LLC is the second dairy manufacturing company to open in Casa Grande in 2013. The company constructed a state-of-the-art yogurt manufacturing facility on a 25-acre site. The 89,999 square foot dairy processing facility for manufacturing yogurt was completed in September 2013. The plant's partners, Ehrmann and Commonwealth Dairy, have owned and operated a dairy operation in Brattleboro, Vermont since 2011. Company officials expect to employ a 250-member work-force by 2015.

The economy of Casa Grande and the surrounding areas continues to experience an improvement with the opening of Sam's Club in the spring of 2014. The 136,000 square foot warehouse-styled store is being built on an 18-acre site. The Casa Grande store includes a gas station, photo center, bakery, optical department and pharmacy. This store is the first of its kind in Casa Grande and the 16th Sam's Club Store in Arizona and will employ approximately 175 people.

The Casa Grande Valley agricultural industry has long been a major contributor to the area economy. The Census of Agriculture shows there are over 785 farms in Pinal County and accounts for almost 200,000 acres of farmland. The estimated market value of crop sales is around \$240 million dollars. Pinal County is consistently in the top rankings for field crop production in Arizona competing with Maricopa County. Some of the key crops for the area include cotton, alfalfa, and corn for silage, wheat, and barley.

In 2007, the 1,000,000 square foot Promenade, shopping center, was completed. The Promenade Shopping Center consists of a number of well-known national retail stores, restaurants, and a multiplex movie theater.

Casa Grande has become the "new" home Mecca for the Phoenix area. New home prices are running from \$25,000 to \$50,000 below the Phoenix market. For some time now the developers have been looking at Pinal County as a whole for a wide variety of communities from active adult to single family communities. The original projections for continued growth have slowed down considerably due to economic conditions in the housing market.

Outside the City of Casa Grande, the District's most significant economic component remains agriculture. While the City of Casa Grande is shedding its agrarian dependency, Pinal County's outlying economy has always been strongly dependent on agriculture. The District lies in the Santa Cruz and Santa Rose Basins, two of the State's most fertile agriculture areas. Over 100,000 acres in the valley are under irrigation, producing cotton (the area's principal crop), grains, alfalfa, vegetables and citrus fruits. Farming is supplemented by the presence of several large cattle ranching and feeding operations in the area.

<u>Long-term Financial Planning</u>. Despite the loss of construction employment in the area, the District has seen a small increase in new residents over the last several years which has equated to new students. However, the District has also experienced a loss of students due to the opening of a new charter high school in fiscal year 2011-12.

#### **ACKNOWLEDGMENTS**

<u>Acknowledgments</u>. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Dr. Shannon Goodsell Superintendent Jeff Van Handel

#### INDEPENDENT AUDITOR'S REPORT

Governing Board Casa Grande Union High School District No. 82

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Casa Grande Union High School District No. 82 (District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Casa Grande Union High School District No. 82, as of June 30, 2014, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Reported as Assets and Liabilities* for the year ended June 30, 2014, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14 and budgetary comparison information on pages 50 through 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 26, 2015, on our consideration of Casa Grande Union High School District No. 82's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Casa Grande Union High School District No. 82's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Casa Grande Union High School District No. 82 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

#### FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$373,747 which represents a one percent increase from the prior fiscal year.
- General revenues accounted for \$27.8 million in revenue, or 82 percent of all current fiscal year revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$6.1 million or 18 percent of total current fiscal year revenues.
- The District had approximately \$33.5 million in expenses related to governmental activities, a decrease of 4 percent from the prior fiscal year primarily due to efforts by the District to reduce expenses.
- Among major funds, the General Fund had \$23.0 million in current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$23.0 million in expenditures. The General Fund's fund balance increased from \$1.5 million at the prior fiscal year end, to \$1.8 million at the end of the current fiscal year.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Cont'd)**

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Concl'd)**

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General and Title I Grants Funds both of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund and the major special revenue fund as required supplementary information.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$59.4 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)**

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2014 and June 30, 2013.

|                                  | As of |              | As of |              |

| Current and other assets         | \$    | 7,985,193    | \$    | 9,940,496    |
| Capital assets, net              |       | 83,275,738   |       | 85,571,222   |
| Total assets                     |       | 91,260,931   | _     | 95,511,718   |
| Current and other liabilities    |       | 2,191,780    |       | 3,452,850    |
| Long-term liabilities            |       | 29,699,185   |       | 33,062,649   |
| Total liabilities                |       | 31,890,965   |       | 36,515,499   |
| Net position:                    |       |              |       |              |
| Net investment in capital assets |       | 56,212,094   |       | 55,214,231   |
| Restricted                       |       | 3,455,282    |       | 2,830,102    |
| Unrestricted                     |       | (297,410)    |       | 951,886      |
| Total net position               | \$    | 59,369,966   | \$    | 58,996,219   |

The District's financial position is the product of several financial transactions including the net result of activities, the payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

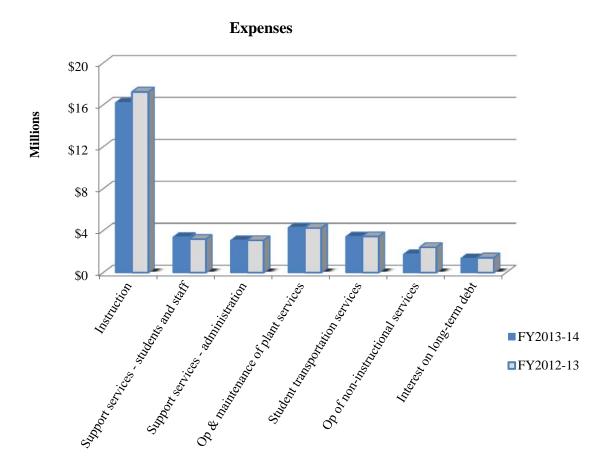

- The principal retirement of \$1.7 million of bonds.
- Capital asset depreciation of \$2.4 million.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)**

**Changes in net position.** The District's total revenues for the current fiscal year were \$33.9 million. The total cost of all programs and services was \$33.5 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2014 and June 30, 2013.

|   | Fiscal Year   |            | F             | Fiscal Year |  |

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)**

The following are significant current year transactions that have had an impact on the change in net position.

- The increase of \$2.4 million in unrestricted state aid was due to an increase in the base level support of the state funding formula.
- The increase of \$1.2 million in property taxes was primarily due to an increase in property tax rates.
- The overall decrease in expense of \$1.5 million was due to efforts by the District to maximize budget and cash carryforward for future year's expenses.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Concl'd)

| Operation and maintenance of plant services | 4,313,109                | (4,026,445)     | 4,251,565     | (4,097,534)    |
| Student transportation services             | 3,440,871                | (3,440,871)     | 3,447,428     | (3,447,428)    |
| Operation of non-instructional services     | 1,749,021                | 533,806         | 2,419,386     | (267,241)      |
| Interest on long-term debt                  | 1,362,291                | (1,362,291)     | 1,413,861     | (1,413,861)    |
| Total                                       | \$ 33,549,483            | \$ (27,429,582) | \$ 35,040,239 | \$(29,199,855) |

- The cost of all governmental activities this year was \$33.5 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$6.1 million.
- Net cost of governmental activities of \$27.4 million was financed by general revenues, which are made up of primarily property taxes of \$14.6 million and unrestricted state aid of \$12.3 million.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$5.0 million, an increase of \$892,935 due primarily to increased state funding and decreased capital expenditures.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Concl'd)

The General Fund comprises 35 percent of the total fund balance. Approximately \$1.5 million, or 86 percent of the General Fund's fund balance is unassigned

The General Fund is the principal operating fund of the District. The fund balance increased \$225,295 in the General Fund to \$1.8 million as of fiscal year end. General Fund revenues increased \$2.1 million as a result of an increase in state aid revenues. General Fund expenditures increased \$387,550.

Title I Grant Fund revenues increased \$650,472 and expenditures increased \$620,153 due to the utilization of a prior year carryover allocation.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the General Fund annual expenditure budget for changes in enrollment. The difference between the original budget and the final amended budget was an \$839,764 increase, or 4 percent.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variances are summarized as follows:

- The favorable variance of \$1.2 million in instruction was a result of budgeting the maximum budget carryforward possible to provide capacity in future years for contingencies.
- The favorable variance of \$653,674 in support services administration was partly a result of the creation of a shared services agreement with another school district.
- The unfavorable variance of \$484,405 in operation and maintenance of plant services was primarily due to unanticipated repairs and maintenance costs.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital Assets**. At year end, the District had invested \$107.8 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net decrease prior to depreciation of \$29,932 from the prior fiscal year, primarily due to the disposal of several vehicles. Total depreciation expense for the current fiscal year was \$2.4 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2014 and June 30, 2013.

|                                   | As of         |            | As of         |            |  |
|-----------------------------------|---------------|------------|---------------|------------|--|
|                                   | June 30, 2014 |            | June 30, 2013 |            |  |
| Capital assets – non-depreciable  | \$            | 168,498    | \$            | 168,498    |  |
| Capital assets – depreciable, net |               | 83,107,240 |               | 85,402,724 |  |
| Total                             | \$            | 83,275,738 | \$            | 85,571,222 |  |

Additional information on the District's capital assets can be found in Note 6.

**Debt Administration.** At year end, the District had \$29.1 million in long-term debt outstanding, \$1.9 million due within one year. This represents a net decrease of \$1.8 million.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total secondary assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the secondary assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$76.9 million and the Class B debt limit is \$51.3 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 8 through 10.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2014-15 budget. Among them:

- Fiscal year 2013-14 budget balance carry forward (\$645,746).
- District student population (estimated 3,777).

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased 2 percent to \$23.4 million in fiscal year 2014-15 due to increased enrollment. No new programs were added to the 2014-15 budget.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Casa Grande Union High School District No. 82, 1362 North Casa Grande Avenue, Casa Grande, Arizona 85122.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Casa Grande Union High School District No. 82 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2014, the District implemented the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. GASB Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

The more significant of the District's accounting policies are described below.

#### A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, component units combined with the District for financial statement presentation purposes, and the District, are not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, athletic functions, and sponsorship of Casa Verde Charter High School.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

<u>Blended Component Unit</u> – The Casa Verde Charter High School is a nonprofit organization that provides educational services to students of the District. The school has a five member appointed Board which is comprised of the current Board members of the District. The District is responsible for all financial operations of the School. Separate financial statements for the component unit have not been prepared.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District and its component unit. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted Federal, State and County aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

<u>Fund Financial Statements</u> – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

Property taxes, Federal, State and County aid, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

<u>Title I Grants Fund</u> – The Title I Grants Fund accounts for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging State academic standards.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Additionally, the District reports the following fund type:

<u>Fiduciary Funds</u> – The Fiduciary Funds are Agency Funds which account for resources held by the District on behalf of others. This fund type includes the Student Activities Fund, which accounts for monies raised by students to finance student clubs and organizations held by the District as an agent. In addition, funds that account for employee withholdings before the monies are remitted to the appropriate entities are included in the Agency Funds.

The Agency Funds are custodial in nature and do not have a measurement focus and are reported on the accrual basis of accounting. The Agency Funds are reported by fund type.

#### **D.** Cash and Investments

A.R.S. require the District to deposit certain cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies of instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **E.** Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements.

#### F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### G. Property Tax Calendar

Property tax levies are calculated by applying tax rates against both the primary assessed valuation and the secondary assessed valuation. Primary and secondary valuation categories are composed of the exact same properties. However, the primary category limits the increase in property values to 10% from the previous year, while there is no limit to the increase in property values for secondary valuation. Override and debt service tax rates are applied to the secondary assessed valuation and all other tax rates are applied to the primary assessed valuation.

The County levies real property taxes on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. The billings are considered past due after these dates, at which time the applicable property is subject to penalties and interest. The County also levies various personal property taxes during the year, which are due the second Monday of the month following receipt of the tax notice, and become delinquent 30 days thereafter. Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

#### I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements 10-50 years Buildings and improvements 10-50 years Vehicles, furniture and equipment 5-25 years

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District did not have any items that qualified for reporting in this category.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **K.** Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### L. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### M. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

#### N. Net Position Flow Assumption

In the government-wide financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

#### O. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concl'd)

#### P. New Accounting Pronouncement

GASB Statement No. 68, Accounting and Financial Reporting for Pensions will be effective for the District's June 30, 2015 fiscal year end. This Statement replaces the requirements of prior GASB standards for pensions accounting and reporting. This Statement requires governments providing defined benefit pensions to recognize the long-term obligation for pension benefits as a liability, and to more comprehensively and comparably measure the annual costs of pension benefits. Each employer participating in a multiple-employer defined benefit pension plan will be required to record a liability representing their "proportionate share" of the plan's total net pension liability. This Statement also enhances accountability and transparency through revised note disclosures and new required supplementary information.

#### **NOTE 2 – FUND BALANCE CLASSIFICATIONS**

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

*Nonspendable*. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

**Restricted**. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

**Committed.** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS (Concl'd)

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

*Unassigned*. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

The table below provides detail of the major components of the District's fund balance classifications at year end.

|                            |         |           | N            | Ion-Major |
|----------------------------|---------|-----------|--------------|-----------|
|                            | General |           | Governmental |           |
|                            |         | Fund      |              | Funds     |
| Fund Balances:             |         | _         |              |           |
| Nonspendable:              |         |           |              |           |
| Prepaid items              | \$      | 246,953   | \$           |           |
| Restricted:                |         |           |              |           |
| Debt service               |         |           |              | 803,857   |
| Capital projects           |         |           |              | 1,344,911 |
| Voter approved initiatives |         |           |              | 344,802   |
| Federal and State projects |         |           |              | 544,208   |
| Food service               |         |           |              | 107,969   |
| Other purposes             |         |           |              | 128,731   |
| Unassigned                 |         | 1,518,759 |              |           |
| Total fund balances        | \$      | 1,765,712 | \$           | 3,274,478 |

#### NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Excess Expenditures Over Budget</u> – At year end, the District had expenditures in several funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

#### **NOTE 4 – CASH AND INVESTMENTS**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$1,060,817, and the bank balance was \$1,114,616.

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments.

At year end, the District's investments consisted of the following.

|                                    | Average Maturities | _Fa | air Value |
|------------------------------------|--------------------|-----|-----------|
| County Treasurer's investment pool | 2.04 years         | \$  | 390,700   |
| Total                              |                    | \$  | 390,700   |

*Interest Rate Risk.* The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

#### **NOTE 5 – RECEIVABLES**

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's major funds and non-major governmental funds in the aggregate were as follows.

|                                       |                 |    |              | N  | Non-Major   |
|---------------------------------------|-----------------|----|--------------|----|-------------|

| Vehicles, furniture and equipment            | 4,327,548     | 121,050       | 150,982   | 4,297,616     |
| Total capital assets being depreciated       | 107,629,477   | 121,050       | 150,982   | 107,599,545   |
| Less accumulated depreciation for:           |               |               |           |               |
| Land improvements                            | (2,002,976)   | (149,502)     |           | (2,152,478)   |
| Buildings and improvements                   | (17,277,915)  | (2,024,971)   |           | (19,302,886)  |
| Vehicles, furniture and equipment            | (2,945,862)   | (242,061)     | (150,982) | (3,036,941)   |
| Total accumulated depreciation               | (22,226,753)  | (2,416,534)   | (150,982) | (24,492,305)  |
|  |               |               |           |               |
| Total capital assets, being depreciated, net | 85,402,724    | (2,295,484)   |           | 83,107,240    |
| Governmental activities capital assets, net  | \$ 85,571,222 | \$(2,295,484) | \$        | \$ 83,275,738 |

#### NOTE 6 – CAPITAL ASSETS (Concl'd)

Depreciation expense was charged to governmental functions as follows.

| Instruction  | \$1,833,196 |
|--|-------------|
| Support services – students and staff                | 138,950     |
| Support services – administration                    | 73,565      |
| Operation and maintenance of plant services          | 266,590     |
| Student transportation services                      | 77,011      |
| Operation of non-instructional services              | 27,222      |
| Total depreciation expense – governmental activities | \$2,416,534 |

#### NOTE 7 – SHORT TERM DEBT – REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid. Short-term debt activity for the current fiscal year was as follows.

| Beginning    |               |               | Ending          |
|--------------|---------------|---------------|-----------------|
| Balance      | Issued        | Redeemed      | Balance         |
| \$ 2,009,006 | \$ 12,454,967 | \$ 13,034,088 | \$<br>1,429,885 |

#### NOTE 8 – OBLIGATIONS UNDER CAPITAL LEASES

The District has acquired equipment under the provisions of long-term lease agreements classified as capital leases. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Revenues from the Unrestricted Capital Outlay Fund and transfers from the Building Renewal Grant Fund are used to pay the capital lease obligations.

The assets acquired through capital leases that meet the District's capitalization threshold are as follows.

|                                   | Governmenta<br>Activities |        |  |
|-----------------------------------|---------------------------|--------|--|
| Asset:                            |                           |        |  |
| Vehicles, furniture and equipment | \$                        | 45,147 |  |
| Less: Accumulated depreciation    |                           | 28,038 |  |
| Total                             | \$                        | 17,109 |  |

### NOTE 8 – OBLIGATIONS UNDER CAPITAL LEASES (Concl'd)

The future minimum lease obligations and the net present value of these minimum lease payments at year end were as follows.

|   | Go               | Governmental |  |  |  |
|---|------------------|--------------|--|--|--|
| Year Ending June 30:                    |                  | Activities   |  |  |  |

| Compensated absences payable     | 496,422       | 356,456    | 266,849     | 586,029      | 245,000      |
| Governmental activity long-term  |               |            |             |              |              |
| liabilities                      | \$ 31,452,649 | \$ 356,456 | \$2,109,920 | \$29,699,185 | \$ 2,167,773 |

#### NOTE 11 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows.

#### **Due to/from other funds:**

|                              |            |              | Non-Major    |              |
|------------------------------|------------|--------------|--------------|--------------|
|                              | General    | Title I      | Governmental | Total Due to |
|                              | Fund       | Grants Fund  | Funds        | Other Funds  |
| Non-Major Governmental Funds | \$ 316,988 | \$ 1,333,296 | \$ 851,320   | \$ 2,501,604 |
| Total Due from Other Funds   | \$ 316,988 | \$ 1,333,296 | \$ 851,320   | \$ 2,501,604 |

At year end, several funds had negative cash balances in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with other funds. All interfund balances are expected to be paid within one year.

#### **Interfund transfers:**

|                              |      | Transfers in         |       |         |    |         |  |
|------------------------------|------|----------------------|-------|---------|----|---------|--|
|                              |      | Non-Major            |       |         |    |         |  |
|                              | (    | General Governmental |       |         |    |         |  |
| Transfers out                | Fund |                      | Funds |         |    | Total   |  |
| General Fund                 | \$   |                      | \$    | 133,125 | \$ | 133,125 |  |
| Title I Grants Fund          |      | 88,626               |       |         |    | 88,626  |  |
| Non-Major Governmental Funds |      | 15,826               |       | 152,216 |    | 168,042 |  |
| Total                        | \$   | 104,452              | \$    | 285,341 | \$ | 389,793 |  |

Transfers between funds were used (1) to move Federal grant funds restricted for indirect costs, (2) to close out discontinued funds, and (3) to move funds for capital lease payments.

#### **NOTE 12 – CONTINGENT LIABILITIES**

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

#### **NOTE 13 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District's employees have health and accident insurance coverage with the Arizona School Board Association Insurance Trust (ASBAIT). ASBAIT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to ASBAIT for employees' health and accident insurance coverage. The agreement provides that ASBAIT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

#### NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The District contributes to the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined health insurance premium plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan that covers employees of the State of Arizona and employees of participating political subdivisions and school districts. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

<u>Plan Description</u> – Benefits are established by state statute and the plan generally provides retirement, long-term disability, and health insurance premium benefits, including death and survivor benefits. The retirement benefits are generally paid at a percentage, based on years of service, of the retirees' average compensation. Long-term disability benefits vary by circumstance, but generally pay a percentage of the employee's monthly compensation. Health insurance premium benefits are paid as a fixed dollar amount per month towards the retiree's healthcare insurance premiums, in amounts based on whether the benefit is for the retiree or for the retiree and his or her dependents.

The ASRS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The most recent report may be obtained by writing the ASRS, 3300 North Central Avenue, P.O. Box 33910, Phoenix, Arizona 85067-3910 or by calling (602) 240-2000 or (800) 621-3778. The report is also available on the ASRS' website at www.azasrs.gov.

<u>Funding Policy</u> – The Arizona State Legislature establishes and may amend active plan members' and the District's contribution rates. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.54 percent (11.30 percent for retirement and 0.24 percent for long-term disability) of the members' annual covered payroll and the District was required by statute to contribute at the actuarially determined rate of 11.54 percent (10.70 percent for retirement, 0.60 percent for health insurance premium, and 0.24 percent for long-term disability) of the members' annual covered payroll.

## NOTE 14 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (Concl'd)

The District's contributions for the current and two preceding years, all of which were equal to the required contributions, were as follows.

|                      |      |             | Health Benefit |        | Long-Term  |        |

## CASA GRANDE UNION HIGH SCHOOL NO. 82 NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2014

#### NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.

The following schedule reconciles expenditures and fund balances at the end of year.

|  | Total         | Fund Balances |
|--|---------------|---------------|
|  | Expenditures  | End of Year   |
| Statement of Revenues, Expenditures and Changes in |               |               |
| Fund Balances – Governmental Funds                 | \$ 22,961,834 | \$ 1,765,712  |
| Activity budgeted as special revenue funds         | (947,463)     | (907,484)     |
| Activity budgeted as capital projects funds        | (3,310)       | (31,574)      |
| Current-year prepaid items                         | 90,929        |               |
| Schedule of Revenues, Expenditures and Changes in  |               |               |
| Fund Balances – Budget and Actual – General Fund   | \$ 22,101,990 | \$ 826,654    |

#### SPECIAL REVENUE FUNDS

<u>Classroom Site</u> - to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

<u>Instructional Improvement</u> - to account for the activity of monies received from gaming revenue.

<u>Professional Development and Technology Grants</u> - to account for financial assistance received to increase student academic achievement through improving teacher quality.

<u>Indian Education</u> - to account for financial assistance received for Indian education at preschool, elementary, secondary and adult levels.

<u>Special Education Grants</u> - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

<u>Vocational Education</u> - to account for financial assistance received for preparation of individuals for employment or advancement in a career not requiring a baccalaureate or advanced degree.

<u>Medicaid Reimbursement</u> - to account for reimbursements related to specific health services provided to eligible students.

<u>Taylor Grazing Fees</u> - to account for financial assistance received for the purpose of protecting public lands by preventing over-grazing and soil deterioration and to provide for orderly use, improvement and development, and stabilization of the livestock industry.

**<u>E-Rate</u>** - to account for monies received to reimburse the District for broadband internet and telecommunications costs.

<u>Impact Aid</u> - to account for financial assistance to local educational agencies that are financially burdened by federal activities.

<u>Other Federal Projects</u> - to account for financial assistance received for other supplemental federal projects.

<u>State Vocational Education</u> - to account for financial assistance received for the preparation of individuals for employment.

**School Plant** - to account for proceeds from the sale or lease of school property.

<u>Food Service</u> - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>Civic Center</u> - to account for monies received from the rental of school facilities for civic activities.

<u>Community School</u> - to account for activity related to academic and skill development for all citizens.

<u>Auxiliary Operations</u> - to account for activity arising from bookstore, athletic and miscellaneous District related operations and to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

<u>Gifts and Donations</u> - to account for activity related to gifts, donations, bequests and private grants made to the District.

<u>Insurance Proceeds</u> - to account for the monies received from insurance claims.

<u>Litigation Recovery</u> - to account for monies received for and derived from litigation.

**Indirect Costs** - to account for monies received from federal projects for administrative costs.

<u>Joint Technical Education</u> - to account for monies received from Joint Technical Education Districts for vocational education programs.

#### STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

#### **Debt Capacity**

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

#### **Operating Information**

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

**Source:** The source of this information is the District's financial records.

Notes: 1) The Arizona State Legislature suspended county equalization payments to school districts for fiscal years 2006-07 through 2008-09.

<sup>2)</sup> The increase in investment income in fiscal year 2007-08 was due to interest earned on significant cash proceeds from the issuance of school improvement bonds.

**Source:** The source of this information is the District's financial records.

**Note:** The provisions of the Governmental Accounting Standards Board (GASB) Statement No. 54 were adopted in fiscal year 2011. The standard replaces the previous reserved and unreserved fund balance categories with the following five fund balance classifications: nonspendable, restricted, committed, assigned, and unassigned fund balance.

**Source:** The source of this information is the 2014 Pinal County Treasurer's records.

Notes: 1) Amounts collected are on a cash basis.

<sup>2)</sup> Unsecured personal property taxes are not included in this schedule because the dates of the monthly rolls vary each year. On the average, 90% of unsecured property taxes are collected within 90 days after the due date.

**Source:** The source of this information is the District's financial records.

**Notes:** 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds and the statutory debt limit on Class B bonds. The calculations of the debt margins are presented in detail for the current fiscal year only.

<sup>2)</sup> Bond premium is not subject to the statutory debt limit.
