Students must complete the enrollment process with the designated summer school provider. To receive credit, students are required to submit an **official transcript** to their school counselor at the beginning of the 2025–2026 school year. This is necessary for credit to be awarded and for student schedules to be updated accordingly.

It is strongly recommended that students contact their school counselor before enrolling in any third-party summer school course to ensure the course will meet credit and graduation requirements.
