using diagnostic tests†

Total Tests Conducted

1,442,015

New Tests reported since last week***

2,804

Total Percent Positive ††

14.2%

* Deaths among cases with specimen collection in the past four weeks are excluded to allow more complete information to be received.

** Vaccination numbers are displayed by the county of residence.

*** Counts of new cases, deaths, tests conducted, and number of vaccine doses administered reflect increases in the total numbers compared to the previous week.

† Diagnostic tests include PCR and antigen testing.

†† Percent positive is defined as the number of positive diagnostic results reported electronically, out of all COVID-19 diagnostic tests reported electronically.

Data are updated on Wednesdays and include data through 2/11/2023.
