Tests Conducted using diagnostic tests †

| | | |
|-----------------------|---------------------------------------|---------------------------|
| Total Tests Conducted | New Tests reported since last week*** | Total Percent Positive †† |
| 1,264,350 | 5,430 | 13.7% |

* Deaths among cases with specimen collection in the past four weeks are excluded to allow more complete information to be received.

** Vaccination numbers are displayed by the county of residence.

*** Counts of new cases, deaths, tests conducted, and number of vaccine doses administered reflect increases in the total numbers compared to the previous week.

† Diagnostic tests include PCR and antigen testing.

†† Percent positive is defined as the number of positive diagnostic results reported electronically, out of all COVID-19 diagnostic tests reported electronically.

Data are updated on Wednesdays and include data through 5/14/2022.
