ACHIEVE PINAL PRESENTS...

a mobile app intended to provide virtual experience dedicated to career exploration, educational planning, and the development of business connections for high school students or adults seeking a new career in Pinal County.

Within the app, business leaders share information with the participants about the jobs they have in their places of employment. They discuss the training and education needed, the pay, benefits, and much more to learn about the career opportunities that exist in Pinal County and what they need to do to prepare for those careers.

App participants will also learn about what steps to take to help fund their education or retraining. They will learn about FAFSA, the Free Application for Federal Student Aid. They will learn about the ever-changing workplace and the transformative impact of technology on jobs.

During this unprecedented and challenging time, we have had to find different ways of connecting with each other. This application allows the ability to still provide students with the opportunity to learn about careers in Pinal County through virtual interactions with business leaders. A big thanks to the Pinal Alliance organization for leading this critical initiative!
