*A CGUHSD employee who reaches the maximum salary will receive any salary increase beyond the maximum salary as a one-time stipend payable at the end of the term of the contract for which any annual raise amount placed them beyond the maximum. For example, a 9.5 month RN in SY 2022-2023 makes \$77,000 and the Governing Board approves a 3% raise for SY 2023-2024. The employee's new salary would be the maximum, \$78,000, and the employee would receive $\$79,310 - \$78,000 = \$1,310$ in a one-time payment payable at the end of the SY 2023-2024 contract term.
